SUMMARY

Experienced Vue.js frontend developer skilled in building responsive web apps, translating designs into pixel-perfect UIs, and collaborating in agile teams to deliver high-performance solutions.

EXPERIENCE

SEO egypt

July 2021 - Present Egypt, Cairo

- 1- Frontend developer at SEO Egypt using Vue.js, Nuxt.js, CSS, Sass, JavaScript, and Node.js.
- 2- Developed and maintained responsive web applications while managing multiple projects simultaneously.
- 3- Collaborated with teams to implement SEO strategies, driving client success and delivering high-quality solutions.

Aswaq

July 2022 - November 2022, Freelance

- 1- Edited and refined user interfaces to enhance the website's appearance.
- 2- Developed, fixed issues, and added functionality to the discount system.
- 3- Completed tasks efficiently as a freelancer, ensuring seamless integration of updates.

Nitros

April 2022 - July 2022 Remotely

- 1- Edited and refined user interfaces to enhance the website's appearance.
- 2- Fixed shipping invoice calculation issues in the frontend and ensured consistency with the backend after request-response cycles.
- 3- Assisted in resolving some payment process steps.

PROJECTS

To view all projects, please check my portfolio.

SEO egypt • mahmoudegh.github.io/portfolio/#work • July 2019 - Present
